Clinical Dietitian, South Coast Health
Fall River, MA, February 2015 - May 2016

Projects

Chronic Pancreatitis Education Booklet, UMass Medical Center
Worcester, MA, November 2019 - present

- Designing information layout for interdisciplinary education booklet for chronic pancreatitis patients using Adobe Indesign
- Compiling all information and graphics for handoff to the hospital's graphic design team

Projects

Health Chat, Career Foundry UX Design Course

Online, March 2019 - December 2019

- Created an app that allows users to seek advice from experts in health and wellness
- Completed the entire design process: research, developing user personas and user flows, wire-framing, user testing and building a high fidelity prototype

Fit Now, Career Foundry UI for UX Specialization Course

Online, December 2019 - April 2020

- Create a responsive web app that helps people with different fitness levels, schedules, and interests, learn to exercise and stay motivated
- Completed entire IU design of this project including: wireframes, mood board, final UI mockups, interactive prototype, animation, style guide, brand icon and icon set, and handoff package

Portfolio Website, Career Foundry Frontend Development Specialization Course

Online, May 2020 - August 2020

- Designed and built my portfolio website from scratch to display all the UX/UI projects I have completed using: HTML, CSS and Javascript
- Creating the layout, style, and color scheme to represent myself as a designer
- Learned about the role of the developer and how UX designers can use this knowledge to collaborate on projects
